Il libero arbitrio - una visione scientifica COMPENDIO (Italian Edition)

Francesco D'Agostino

Il libero arbitrio - una visione scientifica COMPENDIO (Italian Edition) Francesco D'Agostino

In questo brevissimo compendio si è tentato di razionalizzare la misteriosissima "visione" o se si preferisce allucinazione che ebbi nella stesura del primo libro sul libero arbitrio. Questa visione che mi ha impegnato per oltre dieci anni alla fine la sono riuscita a decifrare discretamente. Si è trattato di un evento inspiegabile, che però ha in se una portata rivoluzionaria che può sconvolgere l'establishment. Supera la visione del determinismo assoluto di Einstein con le sue stesse equazioni ossia evocando i potenziali anticipati ed il tempo non ha più la forma passato futuro, ma nel presente un punto di congiunzione tra il passato futuro e il futuro passato. E' una stravaganza? Lo dirà soltanto il tempo. La conclusione a cui mi ha portato questa concettualizzazione è che il libero arbitrio definitivamente non esista, ma non nell'ottica "entropica" del determinismo assoluto.
