The Art And Science Of Personal Magnetism Theron Q. Dumont

It is a strange and almost amusing fact that there should be at the same time, on the part of the general public, such a general acceptance of the existence of personal magnetism, on the one hand, and such an ignorance of the nature of this wonderful force, on the other hand. In short, while everyone believes in the existence of personal magnetism, scarcely anyone possesses knowledge of the real nature of the same, much less a working knowledge of its principles of application.

This book gives you the key to the secret of personal magnetism, but it will still remain up to you to determine just what degree of success you will attain. The best tools and instructions as to how to use them are provided - but you will have to do the rest yourself. Success must and will be yours if you will follow the instructions carefully, persistently and perseveringly.
