The Bible is not a history book, but it does claim to record very real history. Names, places, and events are all part of God's revelation of Himself to the world. For centuries many of these people and places were lost to history and known only through Scripture. But archaeological discoveries reveal that the Bible is incredibly accurate. Venture into the field with apologist Doug Powell and experience many of the most important finds with this book!

A great presentation of the best finds and unsolved mysteries in biblical archaeology. I couldn't put it down!
