Asia and Latin America: Political, Economic and Multilateral Relations (Routledge Contemporary Asia Series)

Asia and Latin America: Political, Economic and Multilateral Relations (Routledge Contemporary Asia Series)

Until the late 1980s, Japan was the only country in Asia with notable political and economic relations. Since then, however, several Asian nations have perceived growing links with the Latin American region as a means of diversifying their political and particularly economic relations while many Latin American decision-makers have increasingly recognised the strategic importance of East Asia in their foreign policy and foreign economic policy designs.

This book analyses the economic, political and socio-cultural relations between Asia and Latin America and examines their growing importance in international relations. In the first part of the book the contributors look at the policies, interests and strategies of individual Asian and Latin American states, while the second part delves into the analysis of multilateral institution-building in Asia-Latin America relations. As such, *Asia and Latin America* will be of interest to undergraduate and postgraduate scholars of comparative politics, international relations, Asian politics and Latin American politics.
