Queer Futures: Reconsidering Ethics, Activism, and the Political (Queer Interventions) Elahe Haschemi Yekani, Eveline Kilian, Beatrice Michaelis

Following debates surrounding the anti-social turn in queer theory in recent years, there has been a renewed interest in the role of activism, the limits of the political, and the question of normativity and ethics. *Queer Futures* engages with these concerns, exploring issues of complicity and agency with a central focus on the material and economic as well as philosophical dimensions of sexual politics. Presenting some of the latest research in queer theory, this book draws together diverse perspectives to shed light on possible 'queer futures' when different affective, temporal, and local contexts are brought into play. As such, it will appeal to scholars of cultural, political, literary, and social theory, as well as those with interests in gender and sexuality, activism, and queer theory.
