Albino Garzetti

The first two centuries of the Christian era were largely a period of consolidation for the Roman Empire. However, the history of the heyday of Roman *imperium* is far from dull, for Augustus' successors ranged from capable administrators - Tiberius, Claudius and Hadrian - to near-madmen like Caligula and the amateur gladiator Commodus, who might have wrecked the system but for its inherent strength.

Albino Garzetti's classic *From Tiberius to the Antonines*, first published in 1960, presents a definitive account of this fascinating period, which combines a clear and readable narrative with a thorough discussion of the methodological problems and primary sources. Regarding difficult historical questions, it can be relied upon for careful and reasonable judgments based on a full mastery of an immense amount of material. Nearly three hundred pages of critical notes and a comprehensive bibliography complement the text, ensuring its continuing relevance for all students of Roman history.
