Early Observations on Possible Defenses by the Emerging Threat Agent Project Bruce W. Bennett, Jonathan Kaufman, James Byrnes, Pamela L. Gordon, McRae Smith

Adversaries could acquire emerging chemical and biological (CB) agents years before U.S. defense planners recognize those agents, and many more years before the United States establishes a comprehensive defense against them. Gaps in defenses against chemical and biological weapon agents can pose a serious risk to U.S. military operations. This paper summarizes early expert observations about the threat and possible responses.
