This full-color book includes 34 of our most popular anatomy and pathology topics presented in both English and Spanish—68 charts total—with emphasis on those disorders that may often affect the Hispanic/Latino population. Handy for learning terminology, this book is also very handy in bilingual patient counseling situations. The covered spiral binding allows the book to lay flat on the desk, with the chart in English on the left hand side next to the same chart in Spanish on the right.

Printed in vivid lifelike colors on high-quality paper, the anatomical charts show the human body in a format that provides a clear and visual understanding of human anatomy, physiology, and diseases. Medical terminology and easy-to-understand supporting text are printed directly on each chart so you never have to refer to a separate key card or manual. Size: 10 inches x 12 inches.
