Surviving and Succeeding Through a Financial Crisis: Seven Strategies to Help You Through a Financial Crisis David Holdaway

The current world financial crisis is reckoned to be the most serious ever. During the past several years the world has seen the worst debt crisis in history and the largest financial failures of all time. The old joke about Noah being the world's greatest financier has a certain relevancy about it; he managed to keep afloat while the rest of the world went into liquidation!

This book is not about quick fixes but understanding God's ways and principles to be able to survive and succeed in difficult times no matter what the economic situation

There is a big difference between thinking you are clever and actually being wise. Some very intelligent people can do some very stupid things. Albert Einstein once observed, "The difference between genius and stupidity is that genius has its limits!"

When it comes to a crisis you need to be more than just smart or clever, you need wisdom and the greatest wisdom of all comes from God.

In this short easy to read book David Holdaway gives seven strategies for not only managing to survive but also how to thrive and excel no matter what financial storms are blowing around us. Markets can crash, the banks may fail, shares can tumble but God is still the same, a refuge from the storms and a rock on which we stand secure.

In the midst of a crisis some people are in pieces while others are in peace - this book will help you to be one of those at peace.
