### **Electrolytic In-Process Dressing (ELID) Technologies: Fundamentals and Applications**

Electrolytic In-Process Dressing (ELID) Technologies: Fundamentals and Applications

Edited by experts, one of whom developed the technology, **Electrolytic In-Process Dressing (ELID)** Technologies: Fundamentals and Applications provides an overview of ELID processes with correlations between the main parameters, describes ELID operations, and illustrates the concepts with case studies. The book's authoritative coverage of major concepts and applications of this emerging technology makes it a definitive reference.

The book delineates the fundamentals, the chemistry and physics, and the hardware required by the process, then explores the application of ELID to different configurations of grinding. It discusses ELID grinding methods, lapping/grinding process, honing, and an original method of ELID grinding of free forms surfaces using an original design. The book also provides case studies in areas such as:

- Nano ultra-precision ELID and the latest developments in ELID nano-grinding
- Glass ceramic mirrors, small lens, and large scale optics
- New concept of micro-workshop, where all the machines tools and measurement devices are table-top machines with high accuracy
- Successful applications of ELID technology in the optics, semiconductor, mold and die, and micro-tools industries
- Surface modifications as a future method for obtaining complex modifications of surfaces by using ELID in combination with other methods

Arguably the first comprehensive review of this emerging technology, this book combines information drawn from experts and the literature to provide a practical reference for the field. The editors have put together a resource that anticipates many of the questions that will arise from the investigation of ELID methods and applications.

#### From reader reviews:

#### **Daniel Spencer:**

Book is to be different for each and every grade. Book for children right up until adult are different content. To be sure that book is very important normally. The book Electrolytic In-Process Dressing (ELID) Technologies: Fundamentals and Applications ended up being making you to know about other know-how and of course you can take more information. It doesn't matter what advantages for you. The reserve Electrolytic In-Process Dressing (ELID) Technologies: Fundamentals and Applications is not only giving you much more new information but also to become your friend when you truly feel bored. You can spend your own personal spend time to read your publication. Try to make relationship with all the book Electrolytic In-Process Dressing (ELID) Technologies: Fundamentals and Applications. You never feel lose out for everything in the event you read some books.

#### Louie Laforge:

Do you one among people who can't read enjoyable if the sentence chained from the straightway, hold on guys this aren't like that. This Electrolytic In-Process Dressing (ELID) Technologies: Fundamentals and Applications book is readable simply by you who hate those perfect word style. You will find the info here are arrange for enjoyable reading through experience without leaving also decrease the knowledge that want to deliver to you. The writer involving Electrolytic In-Process Dressing (ELID) Technologies: Fundamentals and Applications content conveys the thought easily to understand by a lot of people. The printed and e-book are not different in the information but it just different by means of it. So, do you nevertheless thinking Electrolytic In-Process Dressing (ELID) Technologies: Fundamentals and Applications is not loveable to be your top listing reading book?

#### **Adeline Norris:**

Typically the book Electrolytic In-Process Dressing (ELID) Technologies: Fundamentals and Applications will bring someone to the new experience of reading a new book. The author style to describe the idea is very unique. If you try to find new book to read, this book very suitable to you. The book Electrolytic In-Process Dressing (ELID) Technologies: Fundamentals and Applications is much recommended to you to study. You can also get the e-book from your official web site, so you can more readily to read the book.

#### **Michael Kautz:**

In this period of time globalization it is important to someone to get information. The information will make a professional understand the condition of the world. The condition of the world makes the information easier to share. You can find a lot of sources to get information example: internet, paper, book, and soon. You can see that now, a lot of publisher that print many kinds of book. The book that recommended for your requirements is Electrolytic In-Process Dressing (ELID) Technologies: Fundamentals and Applications this publication consist a lot of the information in the condition of this world now. This kind of book was

represented so why is the world has grown up. The vocabulary styles that writer make usage of to explain it is easy to understand. Often the writer made some investigation when he makes this book. That is why this book appropriate all of you.
