What Will Be: How the World of Information Will Change (How the New World of Information Will Change Our Lives) Michael L. Dertouzos

Michael Dertouzos has been an insightful commentator and an active participant in the creation of the Information Age. Now, in *What Will Be*, he offers a thought-provoking and entertaining vision of the world of the next decade -- and of the next century. Dertouzos examines the impact that the following new technologies and challenges will have on our lives as the Information Revolution progresses:

- all the music, film and text ever produced will be available on-demand in our own homes
- your "bodynet" will let you make phone calls, check email and pay bills as you walk down the street
- advances in telecommunication will radically alter the role of face-to-face contact in our lives
- global disparities in infrastructure will widen the gap between rich and poor
- surgical mini-robots and online care will change the practice of medicine as we know it.

Detailed, accessible and visionary, *What Will Be* is essential for Information Age revolutionaries and technological neophytes alike.
