Operación Códice Áureo (Spanish Edition) José Luis Borrero González

El Códice Áureo, manuscrito del siglo XI depositado en la Real Biblioteca del Monasterio de El Escorial, es una pieza de gran valor histórico, económico (por su caligrafía e iconografía en oro) y sentimental para Felipe II, por ser el regalo de su tía María de Hungría, gobernadora por entonces de los Países Bajos. El rey encarga a D. Benito Arias Montano localizarlo y traerlo a España. A partir de ese momento emergen los personajes Alonso Osorio de la Alameda y Fermín González Escudero, quienes desde sus lugares de nacimiento (Mijas y Baza) viven aventuras, persecuciones, amores y traiciones en su devenir por la Málaga y Sevilla del siglo XVI, donde coinciden con D. Miguel de Cervantes Saavedra, para viajar con los Tercios por el Camino Español desde Italia hacia Flandes. En un entramado de novela histórica, se imbrican aquellos viejos tiempos en una investigación policiaca actual, que apasionará al lector desde el primer renglón, hasta el inesperado desenlace.
