The UK currently has the highest rate of teenage pregnancies in Western Europe – seven times those of the Netherlands and double those of France or Germany. Why is the rate so high, and how can it best be tackled? This book looks at teen conceptions and their outcomes in the UK, the challenges faced by young parents, and at strategies for preventing high rates of teenage pregnancy in future. The information comes from a wide range of sources and includes government reports and statistics, newspaper reports, features, magazine articles and surveys, literature from lobby groups and charitable organisations.
