The Cloud Atlas Liam Callanan

Set against the magnificent backdrop of Alaska in the waning days of World War II, *The Cloud Atlas* is an enthralling debut novel, a story of adventure and awakening—and of a young soldier who came to Alaska on an extraordinary, top-secret mission...and found a world that would haunt him forever.

Drifting through the night, whisper-quiet, they were the most sublime manifestations of a desperate enemy: Japanese balloon bombs. Made of rice paper, at once ingenious and deadly, they sailed thousands of miles across the Pacific...and once they started landing, the U.S. scrambled teams to find and defuse them, and then keep them secret from an already anxious public. Eighteen-year-old Louis Belk was one of those men. Dispatched to the Alaskan frontier, young Sergeant Belk was better trained in bomb disposal than in keeping secrets. And the mysteries surrounding his mission only increased when he met his superior officer—a brutal veteran OSS spy hunter who knew all too well what the balloons could do—and Lily, a Yup'ik Eskimo woman who claimed she could see the future.

Louis's superior ushers him into a world of dark secrets; Lily introduces Louis to an equally disorienting world of spirits—and desire. But the world that finally tests them all is Alaska, whose vastness cloaks mysteries that only become more frightening as they unravel. Chasing after the ghostly floating weapons, Louis embarks upon an adventure that will lead him deep into the tundra. There, on the edge of the endless wilderness, he will make a discovery and a choice that will change the course of his life.

At once a heart-quickenning mystery and a unique love story, *The Cloud Atlas* is also a haunting, lyrical rendering of a little-known chapter in history. Brilliantly imagined, beautifully told, this is storytelling at its very best.

From the Hardcover edition.

From reader reviews:

Brian Lowe:

What do you think of book? It is just for students as they are still students or it for all people in the world, the actual best subject for that? Simply you can be answered for that concern above. Every person has distinct personality and hobby per other. Don't to be forced someone or something that they don't need do that. You must know how great and also important the book The Cloud Atlas. All type of book would you see on many methods. You can look for the internet options or other social media.

Michelle Fulk:

Nowadays reading books be a little more than want or need but also be a life style. This reading routine give you lot of advantages. The advantages you got of course the knowledge the particular information inside the book this improve your knowledge and information. The info you get based on what kind of book you read, if you want get more knowledge just go with education and learning books but if you want truly feel happy read one having theme for entertaining like comic or novel. The The Cloud Atlas is kind of e-book which is giving the reader capricious experience.

Dora Champagne:

This The Cloud Atlas is brand-new way for you who has fascination to look for some information as it relief your hunger details. Getting deeper you on it getting knowledge more you know otherwise you who still having small amount of digest in reading this The Cloud Atlas can be the light food in your case because the information inside that book is easy to get by simply anyone. These books build itself in the form and that is reachable by anyone, sure I mean in the e-book contact form. People who think that in reserve form make them feel sleepy even dizzy this reserve is the answer. So you cannot find any in reading a publication especially this one. You can find what you are looking for. It should be here for an individual. So , don't miss it! Just read this e-book variety for your better life and also knowledge.

Ryan Strausbaugh:

What is your hobby? Have you heard that question when you got pupils? We believe that that concern was given by teacher to their students. Many kinds of hobby, All people has different hobby. So you know that little person including reading or as looking at become their hobby. You need to understand that reading is very important as well as book as to be the thing. Book is important thing to include you knowledge, except your personal teacher or lecturer. You see good news or update in relation to something by book. Different categories of books that can you choose to adopt be your object. One of them is niagra The Cloud Atlas.
