Sobre el libro

El libro presenta una irreverente defensa del subdesarrollo, bajo la tesis de que éste no es una etapa económica ni histórica, sino un estado del alma, un sentimiento, además poco estudiado. Con una original reflexión, se nos ofrece el subdesarrollo como un curioso refugio ante los desastres del desarrollo y no como la desgracia que predicán muchos. La civilización occidental, dirá el autor, es la prueba viviente del fracaso moderno, y en tal sentido la crítica es para las sociedades avanzadas. Con sutil ironía Arias Toro se burla de los que corremos detrás del progreso como borregos, porque él, una vez contempla el mundo y la vida, sólo ve cosas extrañas y entonces se pregunta honestamente: ¿De qué progreso habla la gente?
